## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 4, 6 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In Claim 4, on the last line, "south" should be changed to --north-- for antecedent basis. Claims 6 and 7 should depend from Claim 5 for antecedent basis.

### ***Claim Objections***

3. Claims 3-4, and 9 are objected to because of the following informalities: "Filed" should be changed to --field--.. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 2 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Bisconte Sconte De Saint Julien.

Bisconte in Figs. 3-4 discloses a liquid magnetizer having a spiral partitioning board 15 and an arrangement of multiple smaller magnets 17.

6. Claims 1, 4, 11, and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Urakami.

Urakami, in Figs 1-9 discloses a liquid magnetizer having spiral guide sink with counter-clockwise (viewed from above) driven multiple segments 19 (fig 7) pivoted to a same pivot at the center of a sink. The north pole of the magnets 15 are closed to one side of the sink(fig. 9).

#### ***Allowable Subject Matter***

7. Claims 3, 5, 8-10 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 6 and 7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art of record taught or disclosed a pad provided between the guide and the magnet, a plate magnet, nor a device with a plurality of guide sinks.

#### ***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Liao, Fletcher, and Vieira disclose rotating fluid guides.
